Thank you for purchasing this coloring book.

I am a single mother, who was born and raised in Oregon, with an unbridled passion for nature and drawing. Silver Falls State Park has been a staple for my daughter and I for the past 14 years, making it near and dear to my heart.

Keeping that passion in mind, I created this coloring book (with some help from my daughter) to share my sense of love and wonder for one of my favorite state parks.

All the pages, I have hand drawn, from pictures taken over the years during our trips, with some minor artistic liberties.

I hope this coloring book fills you with the same awe of nature that originally inspired me.
